

3C Contamination Control & Cleanroom Products

The UK's Only Dedicated Exhibition for Contamination Control and Cleanrooms

23–24 May 2012 | National Exhibition Centre
Birmingham | UK

www.threec.co.uk

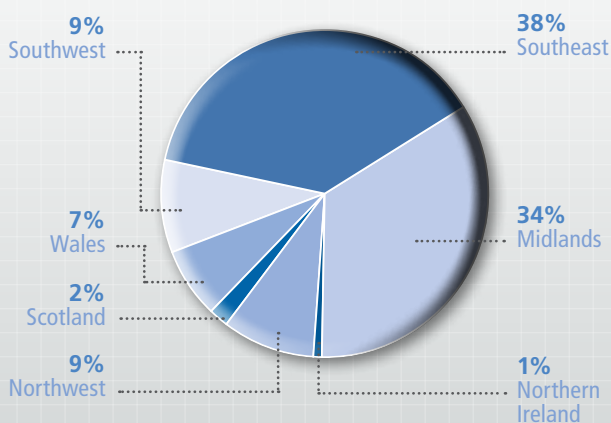

Supported by:

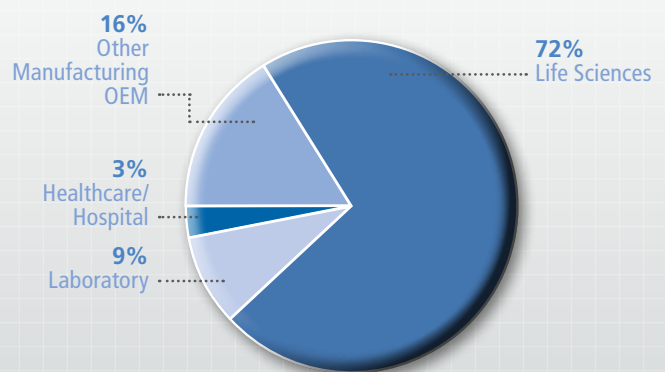

The UK's Showcase of All That's New in Contamination Control and Cleanroom Technology

If your business aims to supply turnkey cleanroom solutions, maintenance, associated equipment or disposables in the UK or Ireland, then 3C is the event that will connect you with the key specifiers and purchasers from leading OEMs.

Visitors by Region

Visitors by Industry

For over 15 years 3C has been connecting industry specifiers and users at the exhibition, and delivering the latest standards and technology updates at its dedicated conference. As a result of its tremendous success, the 3C UK concept has now been brought to MEDTEC Europe 2012, with the 3C Europe counterpart.

The Who's Who of Visiting Companies

The list of visiting companies reads like a who's who guide to UK manufacturing businesses, and includes 3M Healthcare, Astra Zeneca, BD Medical, Bio Products Laboratory, Biotest, Eli Lilly, GE Healthcare, Glaxosmithkline, Johnson & Johnson, Kodak, NHS Smith & Nephew, Thales, Toshiba and many more.

What the Exhibitors Say About 3C...

'We have exhibited at every 3C show so far and were very pleased to see so many visitors at this year's 3C show, many of them with genuine enquiries. On the strength of this year's attendance we have booked again for 2012'

Ray Wheeler, Group President, The Guardline Group

'Connect 2 Cleanrooms had a great first year at the 3C exhibition. As a market leader in Modular Cleanrooms we made some great contacts and came away with some very beneficial enquiries, especially after the launch of our smart, green ECO-1 cleanroom control system at the exhibition.'

Sean Fryers, Connect 2 Cleanrooms

'Cleanroomshop.com thoroughly enjoyed attending the 3C exhibition, a great place to exhibit our huge range of Cleanroom Consumables to the many varying industries in which we work. A great opportunity to put faces to names and meet some great people.'

Sean Fryers, Cleanroomshop.com

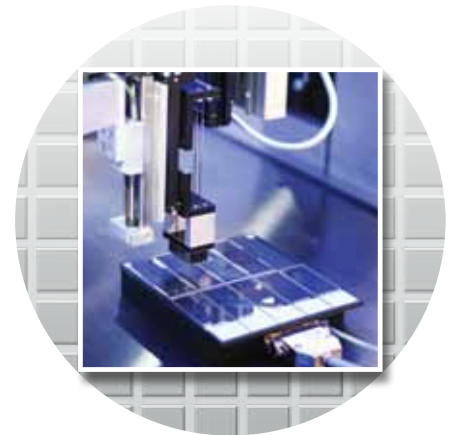

Co-Located With the UK's Major Medical Technology Exhibition

Since 2006 3C has been co-located with MEDTEC UK, formerly the Medical Device Technology Exhibition. This focused event delivers over 2,500 engineers, managers and decision-makers from the UK and Ireland's booming medical device and pharmaceutical manufacturing sectors. With their heavy reliance on manufacturing in cleanroom conditions, the medical device industry is a perfect partner to 3C.

Also Co-Located With Mtec and Midlands Design and Manufacturing 2012

Annually attracting over 6,000 engineers, the exhibition sits alongside Mtec and Midlands Design and Manufacturing. Engineers will be encouraged to visit all four events. If your company has an interest in meeting systems integrators, production and design engineers, then expect to see them in unrivalled numbers at MEDTEC UK, Mtec, Midlands Design and Manufacturing and 3C.

Example of shell scheme stand and walk-on package

Easy Exhibiting With Shell Scheme and Optional Walk-On Package

Shell Scheme

£265 + VAT per m². Includes carpet, walls, fascia board with company name, stand cleaning, and security.

Walk-On Package

Make exhibiting easy by adding the convenient walk-on package to your shell scheme for a one-off payment of £400 + VAT.

The package includes:
