

2007 SUPPLIERS

The winning medical technology companies in the annual Medical Design Excellence Awards (MDEA) competition often owe much of their success to the efforts of the suppliers and designers that worked with them to develop their innovative medical devices.

MDEA suppliers operate in a wide range of areas. Design firms, materials suppliers, component manufacturers, and consulting firms all play a vital role in the development of award-winning products. The MDEA competition acknowledges the contributions of named suppliers through a program designed especially to honor the companies that support MDEA-winning products. In keeping with the global scope of the medical device industry, 11 of the 2007 supplier companies are from outside the United States, representing Austria (2), Canada, France, Ireland, Israel (2), Sweden (2), Switzerland, and the United Kingdom.

MDEA suppliers earn the exclusive right to use the designations “*Year MDEA Supplier*” or “*Supplier to a Year MDEA Winner*,” and to display the special MDEA supplier logo in their promotional materials and exhibit booths.

The following guide provides contact information for the 61 named suppliers to 2007 MDEA-winning products. The information provided here was current at the time the honor was presented but has not been updated. For current information about these suppliers, visit the Medical Device Link online suppliers directories via www.devicelink.com.

Accurate Injection Molds
22264 Starks
Clinton Township, MI 48036
