Show Floor Activities That Deliver High Attendee Traffic

Center Stage
 Located in the heart of the expo floor, attendees flock to this area for free, high-caliber presentations and demonstrations from well-known industry leaders. Participants will look to the expo floor for suppliers to help them put what they've learned into action.

Tech Theater
 Engineers and decision makers come here to learn the latest innovations while discovering new solutions for active and upcoming projects.

NEW AREAS IN 2018!

3D Printing
 A special exhibit area featuring the latest technology transforming design and manufacturing.

Smart Manufacturing
 A resource hub of companies focused on industrial IoT, software, and connectivity.
