

GENERAL UTILITIES INFORMATION

UTILITY AVAILABILITY

▶▶ Electricity is available at all booths; however it is **NOT** included and must be ordered if required. Current available: 120 volt through 208 volt in 1- and 3-phase; 480 volt in 3-phase is also available. Call the RES Electrical Services (847/696-2208) for more information. **Important: 24-hour electrical service must be ordered in advance of the show.**

▶▶ Telephone/Internet is available in all booths and may be ordered by contacting Beth Blood @ IAS Communications (847/993-4803).

▶▶ Water/Drain & Compressed Air is available throughout the Donald E. Stephens Convention Center. Please see the Plumbing Service order form for more information. Please contact the RES Engineering Department (847/696-2208) with any questions or concerns.

▶▶ When submitting advance orders, it is helpful to include a rendition of the booth layout indicating where utilities are to be set. This will help reduce your on-site costs.

Note Every effort will be made to minimize condensation in the air lines; however if condensation is critical to your equipment we recommend you bring your own filters and dryers.
